Abel Berhane Woldemariam
Freier Damm 19,
28757 Bremen

To Whom It May Concern,

Mr. Abel Berhane Woldemariam, born 24.04.2001, joined our company as a working student in May 2022. He completed his full-time (40 hours per week) internship from 01. June 2022 to 31. of August 2022 with us. During this time, he became part of the mobile development team, working on the Raevoluz® mobile application. His duties included:

- Learning and understanding the React Native infrastructure of the app
- Setting up a project environment for React Native
- Upgrading a more than two-year-old React Native project to the latest standards and dependencies
- Implementing UI elements based on mockups from the design team
- Being involved in the creative process of overhauling parts of the UI and coming up with his own ideas and solutions
- Working on an Express.js web service for the app, which runs scheduled tasks, including the selection and implementation of the corresponding library for the task scheduler
- Integrating external APIs

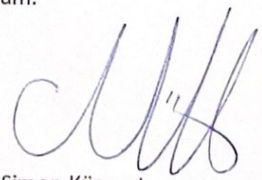

We would describe Mr. Woldemariam as a fast learner, who is very eager to improve. He completed his tasks with a strong focus and diligence to deliver the best result. He showed self-initiative, his capability of understanding the task at hand and good communication within the team.

We value Mr. Woldemariam's professionalism, friendliness towards his superiors and colleagues, as well as his punctuality. It is a pleasure to work with him and we strongly believe, he enriches every work environment.

We are very pleased to say that Mr. Woldemariam exceeded our expectations in every area and quickly became a productive part within our development process of the Raevoluz® mobile application. We would like to continue working with him in the future and we would recommend him to anyone, who is considering hiring Mr. Woldemariam.

Yours sincerely,

Andreas Meyhöfer
